# IP Access Control Solution

## 4 Door 1 Way Access Controller

**Support PoE**

Easy to deploy with PoE switch, no extra power needed

**12VDC Output**

Provide 12VDC output to power up electric door strike

**Expandable**

System can control unlimited door access with PoE switches

**Dual Protocol**

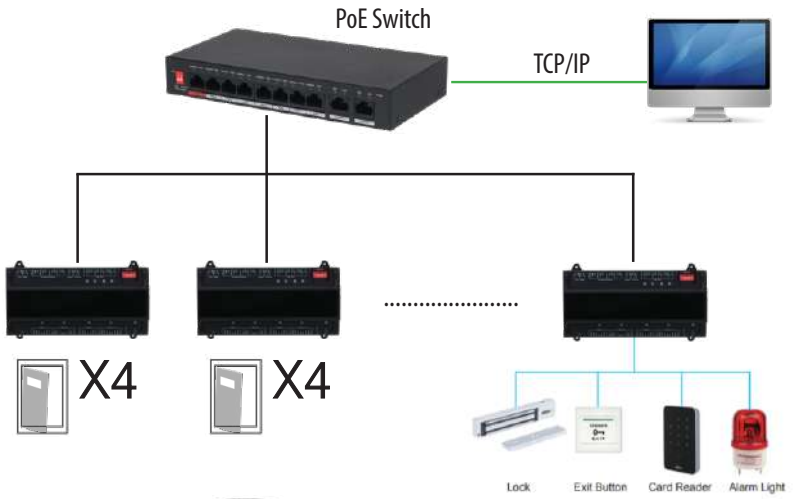
It supports both RS-485 and Wiegand (W26 and W34) for communication

**Holiday Schdule**

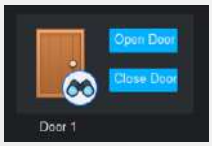
Support access control by holiday schedule, for example, keep open from 9-6 on Mon-Fri, close on weekend

**Access Record**

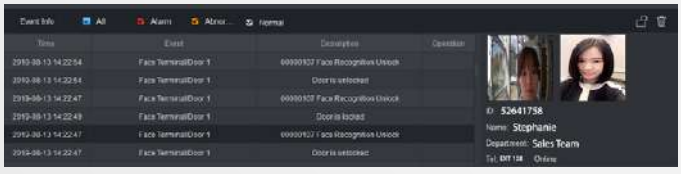
Retrieve door access time and related target records of each door remotely via DSS/SmartPSS platform



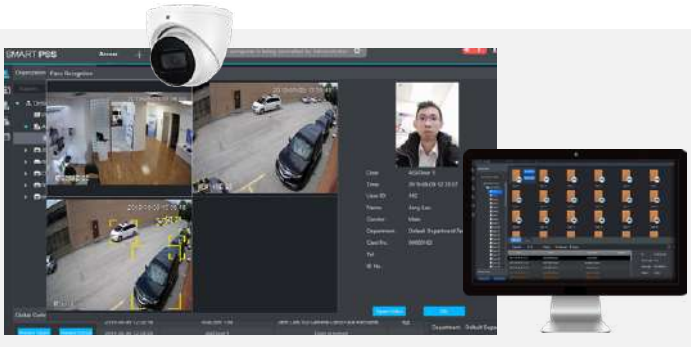
## IP Access Control Applications



Remote lock/unlock the door by platform.



It provides real-time door lock status with snapshot and personal info for the operator to check event details when the door opens.



**Video Linkage with access control by SmartPSS**

- Pop up real-time video at the operator's screen for remote video verification when a visitor scans card.
- The operator can check all access event history with the relevant snapshots and videos.
